

At Bull Run.

Comrade Chas. Elms, of Mechanicsville, N. Y., was struck by a piece of shell which later caused severe heart trouble. He says:

"At second Bull Run a piece of shell lodged in my shoulder, and later rheumatism set in, which in turn affected my heart to such extent that several doctors pronounced my case incurable. Dr. Miles' New Heart Cure relieved my pains, cleared my breath and enabled me to work as usual and deep soundly, and prolonged my life."

UNCLE JESSE BENNETT.

Wants to Know Where the Journal Stands on Expansion.

Rev. Jesse Bennett, an esteemed subscriber at Mechanicsville, who is opposed to an Expansion policy, as he calls it, writes this paper a strong letter and concludes it with this question:

One object I have in writing this letter, is that you may reply: Will you support, and vote the gold-standard ticket, rather than the silver ticket or the man that does not endorse expansion as you see it?

[As Uncle Jesse Bennett seems to have made up his mind what he will do in 1900 it may be useless to argue with him. This paper believes the quickest way to bring a foreign war to a close is or all Americans, regardless of party, to present an united front to the world. It is the duty of Democrats, Populists and Democrats, as well as Republicans to as loyally support McKinley as Douglas did Lincoln. If Mr. Bryan were president and had the Spanish war on his hands or was dealing with the problems growing out of it, such as subduing the Philippine insurgents, he might have an honest set of men around him, but the duty of patriotic citizens would still be the same to uphold our government. He would be entitled to support just as McKinley is, in spite of Algerism, etc.]

If Bryan were in McKinley's place Republicans who joined in crying down the administration in the conduct of the war would be severely condemned as disloyal and giving encouragement to our country's enemies, and they would be called shallow, mean partisans by Bryanites. When Cleveland threw down the gauntlet to Great Britain in the Venezuela affair Americans forgot all party distinctions and rallied to his support as an united nation.

No one can tell at this time what will be the paramount issue in 1900. If in 1900 this country still has a foreign war on its hands the money question will not be the issue, and it will be the duty of all loyal, patriotic citizens to support the government or the party that most clearly and definitely represents an aggressive policy of sustaining national sovereignty at sea on land.

In 100 years past the domination of the English speaking race, with its language, commerce, courts and laws has extended over the North American continent, across the south of Asia and all of Africa, over the north and west of the Indian Islands and other islands of the sea, and is now struggling for complete supremacy in the Philippines.

If we wanted to put Uncle Bennett in a tight place, we'd ask him which he would give up first, Texas or Alaska, Oregon or Louisiana, Hawaii, Cuba or Porto Rico? Perhaps he'd say, keep all we've got but don't take the Philippines. But he is a good loyal man and if the musket were in his hands and if he were left to shoot the insurgents down or withdraw the American flag from Luzon—we'll hate to trust him if we were a Filipino. Would he withdraw the American troops or reinforce them? That is the question for Mr. Bennett and every American to answer just the same as for Mr. McKinley. We say sustain the Army and Navy. Once you put your hands on the plow don't turn back. It is un-American and unpatriotic to desert in the midst of a campaign.

The situation was correctly pictured by Gen. Otis in his last report, no doubt. The masses of the people in the Philippines are returning to agriculture. The Filipinos are hoping for a political reversal of the McKinley administration, to put a party in power that will withdraw the American control from the navy and army and give Aguinaldo and his Tagalog faction, backed by one of the orders of Spanish friars, the control of those islands. Then there would be neither civil, political or religious liberty. There would be no protection to life, property or commerce. The islands would be thrown as an apple of discord into the arena of eastern and European politics, and the dream of liberty, civilization and humanity be turned to a nightmare. Ed. J.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial means, which is effected by the introduction of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is not dangerous, and cannot be cured by Hall's Catarrh Cure. It is sold by druggists, free. F. J. Cheney & Co., Toledo, O.

STAYTON ITEMS.

Miss Candice Davis is home from a visit with friends throughout the county. A. H. Smith returned on Sunday from his mines at Gold Creek.
Acacia chapter is the name of the new Eastern Star lodge which was launched in this city Monday evening. A large delegation from valley points was in attendance and a degree team from Salem performed the work. After organization was perfected all attended the banquet, prepared by the ladies of the order, which was admittedly one of the finest ever served in the city. The membership of this chapter is large and starts out with promising features.
Ben, P. Sorenson and family, late arrivals from Randolph, Neb., moved to this city from Shields, last Friday, and now occupying the Henry Heens property formerly owned by B. T. Taylor. Mr. Sorenson recently purchased the Campbell blacksmithing business and now wields the hammer at the old stand.
Miss Minnie Mangle and her father David Mangle, returned to the city last Tuesday from Great Bend, Kansas, where Miss Minnie went about a year ago to improve her health. She has

"One Good Turn Deserves Another."

It is so easy to go through life doing good and helping to make others happy. A lady who had been ill with a complication of troubles, having been thoroughly cured and now enjoying perfect health, felt it a duty to tell her friends that the specific that brought her back to health was Hood's Sarsaparilla.

Thus, after Hood's had served her well, she felt it deserved a good turn at her hands. Thousands tell the same story of blood purified and health restored. Hood's Sarsaparilla possesses merit peculiar to itself.

Catarrh—"I suffered over six years with catarrh. Spent over \$100 in advertised cures, inhalers, etc., without benefit. Finally tried Hood's Sarsaparilla and it accomplished a complete and lasting cure." M. A. Avery, Victor Ave., Worcester, Mass.

Constipation—"Nervousness caused by a fruit made my wife suffer intensely from gastritis. Morphine was necessary to relieve the suffering. Hood's Sarsaparilla and Hood's Pills were tried after all else failed and in four days she improved and in 14 days she was cured." C. W. T. Schmitz, Cedar Falls, Iowa.

Blood Poison—"At 12 I had bone disease and used crutches. Doctor prescribed and wanted to scrape it. My grandfather gave me Hood's Sarsaparilla. After taking four bottles I threw away crutches, am well and go to school." CHARLES CAMPBELL, 1616 Ontario Ave., Niagara Falls, N. Y.

Dizzy Spells—"After the measles my daughter had dizzy spells, which we thought would pass off but they did not until we gave her Hood's Sarsaparilla. In five days they disappeared and in one month she regained her usual health." B. H. KAMMERMEYER, 33 Graves Place, Holland, Mich.

Indigestion—"I now have a good appetite, eat well, sleep well and my dyspepsia and indigestion have left me. The reason I took Hood's Sarsaparilla was entirely cured me. I am baggage master on the C. & O. Railroad." THOMAS COLES, 110 Carr St., Sandusky, Ohio.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver, bile, the most irritating and only cathartic to take with Hood's Sarsaparilla.

been afflicted with hemorrhage of the lungs for some time and it was thought the change of climate would effect a cure until a few weeks ago it was thought best to return to Oregon, the Eastern climate having been of no avail. She is at present however, receiving medical attention from Albany's Chinese doctor, who entertains the hope of certain relief. Miss Mangle is a very pleasant and entertaining young lady of exceptional character and the young and old of this community feel deeply interested in her welfare, and all join in the hope that she will soon recover her good health.

Sunday School Convention.

The second quarterly Sunday school convention of this year, was held at the Laurens, Oregon, church June 25. As the weather proved unfavorable the convention was held in the church instead of the grove as anticipated. But despite of clouds and storm the house was well filled and promptly at 10:30 the exercises began. First on the program was a short discourse on convention work by President Mr. Kirby. Brooks Sunday school then came forward and after singing, Mrs. Evans presented a very interesting paper on "How best to encourage the missionary spirit in the Sunday school." This question being open for discussions, many interesting remarks and suggestions were made by members of the convention. Mr. Thacker of Hazelgreen, led in discussions on "What should be the primary object of the Sunday School," many valuable hints were given to the teachers and other leaders in this work. Not until the hour hand was slowly pointing to 12, did the convention realize that it would take more than Sunday school arguments to sustain life. All repaired to the Grange Hall near by, where a beautiful lunch was spread and a general invitation was given. At 1 o'clock the convention was again called to order, after song service, Miss Minnie Wade of Parkersburg, presented a very interesting paper, describing the discipline that would constitute an ideal Sunday school. Mr. Kirby representing the Hayesville school, gave a few, but impressive words on the best mode of conducting the convention. After an experience meeting in relation to the work, the following officers were elected for the term of one year. Mr. J. H. Baughman, president, Mr. Lucius Cawood secretary. The next convention will be held at Brooks the fourth Sunday in September.

A College for Alaska.

The recent influx of population into Alaska has created a demand for schools and the building of a school to be called the Bishop McCabe, College of Alaska, has been started at Skagway, by the M. E. church.

The first shipment of lime having already been sent from Seattle.

The climate of southeastern Alaska is not so disagreeable as some imagine, the winters being not nearly so severe as in many of our middle Western states. Wrangell and London are on the same degree of latitude, and Juneau is no further north than Glasgow, Scotland.

Dawson and St. Petersburg, Russia, are on the same parallel.

The coldest day at Juneau the past winter was 8 degrees above zero, and the average was 23 degrees.

Juneau has a rainfall of 80 inches, while at Skagway it was hardly 20 inches.

Apt Quotations.

Proverbs, axioms and wise sayings have been uttered by Confucius and other wise men from time immemorial, but few people realize how many there are of them. C. I. Hood & Co., of Sarsaparilla fame, have over two thousand and they have originated the ingenious plan of serving them up in delectable shape in thousands of newspapers, with each one neatly turning a point as to the merit of their well known medicine. The extensive use of these proverbs is original and creditable to Hood & Co.
